

PATIENT APPLICATION FORM

WELCOME TO OUR CLINIC. We specialize in assisting our patients to achieve their highest level of health through our spinal and postural corrective programs. Our approach is very unique and advanced from other rehabilitative programs. This allows our patients to achieve far superior results compared to most other systems.

Please fill out the following information thoroughly so the doctor can let you know if we can accept your case. Please feel free to ask any questions if you need assistance. We look forward to serving you.

I understand and agree that health and accident insurance policies are an arrangement between an insurance carrier and myself. Furthermore, I understand that the Doctor's Office will prepare any necessary reports and forms to assist me in making collection from the insurance company and any amount authorized to be paid directly to the Doctor's office will be credited to my account on receipt. However, I clearly understand and agree that all services rendered me are charged directly to me and that I am personally responsible for payment. I also understand that if I suspend or terminate, any fees for professional services rendered me will be immediately due and payable.

I hereby authorize the Doctor to treat my condition as he or she deems appropriate. It is understood and agreed the amount paid the Doctor, for x-rays, is for examination only and the x-ray negatives will remain the property of this office, being of file where they may be seen at any time while a patient of this office. The patient also agrees that he/she is responsible for all bills incurred at this office. By signing this agreement and receiving services here, should this go to collections, you agree to pay collection and attorney fees and to be called by an auto/predictive dialer on your home or cell number.

HEALTH CONDITIONS

Abnormal postural habits or distortions are the result of trauma or stress to the body that have misaligned the vertebrae in your spine. When these vertebrae are twisted from their normal position, they will cause stress to the spinal cord and the delicate nerves that pass between the vertebrae. These misalignments are called Subluxations (sub-lux-a-shuns). It has been extensively documented that subluxations, causing stress to your nerves, will weaken and distort the overall structure of your spine. This results in a weakened and distorted POSTURE. Subluxations have many serious and adverse affects on your overall health. Please check any health condition you may be experiencing, now or in the past.
